

DD/S 6-9-1/372

OFFICE OF THE ADMINISTRATOR

September 17, 1969

Mr. Richard Helms
Director
Central Intelligence Agency
Washington, D. C. 20505

Dear Mr. Helms:

This is to alert you to the effect that the Federal Highway Administration has an active plan before the Congress for the upgrading and expansion of facilities at the Fairbank Highway Research Station in McLean, Virginia.

Phase I of this development, scheduled for fiscal years 1971 and 1972, may well require revocation or adjustment of the use permit for the land on which your Employee's Recreation Association has constructed baseball diamonds. Phase II, which is scheduled for fiscal years 1973 and 1974, may require readjustment of areas now used by your agency for the west parking lot facility and heliport, although every effort will be made in the site planning to avoid undue disruption.

Sincerely yours,

F. C. Turner
Federal Highway Administrator
